CIS 443/543 User Interfaces

Final Project Grading Form

Summary

You will be graded on (1) completing all the parts of the assignment, (2) correctly applying the methods and techniques, (3) having the content make sense and be representative of the real world, and (4) the quality of your presentation and writing—communicating ideas clearly, concisely, completely and correctly (spelling and grammar).

Required Hand-ins

How to run the system (URL's, etc.)	_____
Written Report	_____
Paper version of source code with identification of own code	_____
CD-ROM containing project	_____

Total Final Project Points _____

Total Final Project Grade _____

OVERALL COMMENTS:

Program (40 points)

Meets minimum requirements (25 points)	_____
Screen size and resolution minimum (3 points)	_____
Cross-platform Netscape and IE (5 points)	_____
Supports Fall 2000 General Election (2 points)	_____
Supports core functions	
Voter registration (3 points)	_____
On-line election pamphlet & other information (5 points)	_____
Casting a ballot (5 points)	_____
Viewing election results (2 points)	_____
Program Conceptualization (10 points)	
Correct output & event logic (5 points)	_____
Flexible and robust (allows for modification) (2 points)	_____
Successful integration of multiple components (3 points)	_____
Program Style (5 points)	_____
Code documentation (3 points)	_____
Program organization: modularity (2 points)	_____
Extra Credit (10 points)	
Database implementation (5 points)	_____
Other (5 points)	_____
Total Program	_____

User Interface Usability (20 points)

Easy to navigate: user knows what to do next (3 points) _____

Easy to navigate: user knows where they are (2 points) _____

Efficient task performance (5 points) _____

Adequate feedback and processing of errors (2 points) _____

Support for first-time user (3 points) _____

Adequate help support for all user (3 points) _____

Accessibility requirements for visually impaired (2 points) _____

Extra Credit (10 points)

Multiple human language support (5 points) _____

Chat room or other innovative technology (5 points) _____

Total UI Usability _____

Written Report (40 points)

Introduction (5 points)

Introduction to genre (0.5 point) _____

Problem statement (0.5 point) _____

Description of potential users (1 point) _____

Comparing programs of similar functionality (1 point) _____

Brief description of user studies (1 point) _____

Usability requirements specification (5 points) _____

Description of program's overall functionality (0.5 point) _____

How does the UI fit in with the rest of the system? (1 point) _____

Functional requirements (1 point) _____

Overall interface style and design goals (0.5 point) _____

Conceptual models or metaphors used (0.5 point) _____

Usability specifications (0.5 point) _____

Description of target hardware & software (0.5 point) _____

Outstanding constraints (0.5 point) _____

Detailed user interface specification (10 points)

Interaction scenarios integrated with storyboards (5 points)

Complete for all core activities _____

Includes readable mockups of screens _____

User Interaction Network (5 points) _____

Testing and evaluation of the user interface: Usability study (5 points)

Description of usability studies done (1 point) _____

Summary of findings from usability study (3 points) _____

Discuss changes to improve usability (1 point) _____

Conclusions (5 points)

Future design directions (3 points) _____

Overall reflection on usability issues for on-line election (2 points) _____

Quality of Written Report (10 points) _____

Total Written Report _____
