CIS 443/543 User Interfaces

Final Project Grading Form

Summary

You are graded on (1) completing all the parts of the assignment, (2) correctly applying the methods and techniques, (3) having the content make sense and be representative of the real world, and (4) the quality of your writing and presentation—communicating ideas clearly, concisely, completely and correctly (spelling and grammar)—and programming.

Graded Sections

Human-Centered Development process (20 points):

Quality of initial user studies (5 points) _____

Quality of usability evaluation studies (10 points) _____

Integration of analyses into the design (5 points) _____

Usability Design of Final artifact (30 points) _____

Programming code: Effort & quality (20 points) _____

Written Report: Completeness & quality (20 points) _____

Presentation: Completeness & quality (10 points) _____

Total Final Project Points _____

Total Final Project Grade _____

OVERALL COMMENTS:

Project: _____

Names: _____

CIS 443/543: User Interfaces Grading Sheet for Final Project

Usability of Final Project (30 points)

Description	Points Possible	Points Received
1. Tasks Can accomplish core tasks Can perform core tasks <i>reliably</i> Can perform core tasks <i>efficiently</i> Can migrate to non-core tasks	10	
2. Presentation Attractive system image Consistent and clean spatial layout, with sensible use of whitespace and grouping Suggestive and memorable icons and labels	10	
3. Interaction Interaction is consistent Feedback always present Actions are natural mappings Error trapping Gulf of execution? Gulf of evaluation?	10	

Comments:

Program Code (20 points)

Description	Points Possible	Points Received
1. Correctness Program contains no bugs Program's functions execute as expected, and are sufficiently fast	10	
2. Completeness Core functionality is actually implemented Non-core functionality is stubbed out	5	
3. Quality Commented code Documentation overall Well-structured Borrowed code given attribution	5

UI Review Form (Testing the UI)

Task

Description:

a) I found this task easy to accomplish YES NO

b) Usability problems encountered or expected:

c) What I liked best about this UI:

Project NAME: _____ TEAM: _____

CIS 443/543
Final Project Studio #3 FINAL PRESENTATION
Evaluation Checklist

PRESENTATION (10 points)

Required elements in presentation

1) Brief overview (2 minutes)

1. overall concept of application
2. users
3. user studies performed
4. core functionality
5. usability requirements

2) A description of the user interface (3 minutes)

3) A narrative of one interesting core function. If you have a working computer prototype, you can "walk" us through this, or you can give a storyboard with drawings or screen mockups. (5 minutes)

4) Description of the usability testing you have done, what you found, and how you addressed this in the design. (5 minutes)

Design clearly explained
Logical Flow?
Visual displays/slides
Speaking Style
All members of team participated
