Team Member Evaluation

Please fill out one evaluation for each member of your team, including yourself.

- **Dependable.** A dependable team member makes commitments to perform some part of the work and will finish that work competently and on time.
- **Constructive.** A constructive team member puts the interest of the group before personal ambition and ego. A constructive team member participates in discussions that lead toward a good outcome, rather than trying to show off. He or she help the team achieve a good result, rather than trying to look good.
- **Engaged.** An engaged team member takes an active part in the work of the group, including discussions and individual work.
- **Productive.** A productive member finishes a lot of work, and contributes their share to the work of the group.
- **Asset.** Each member should contribute some particular skill or knowledge to the group. A member is an asset to the group if they contribute something of value.

Attribute Rating: 1 = not at all; 2 = somewhat; 3 = typical or average; 4 = more than typical or average; 5 = extremely
