Fall '10 CIS 122 Homework 3 – 100/100 points possible – Due Wednesday, 11-3, 11:59 PM

1. [30] Programming Exercise 5.1, page 178. Name you source file "Homework3-1.cpp".

2. [30] Programming Exercise 5.3, page 178. Hint: use a while loop to iterate through the individual digits using a method similar to that used to sum the individual digits in Homework 1. Name you source file "Homework3-2.cpp".

3. [40] Programming Exercise 6.1, page 208. Name you source file "Homework3-3.cpp".

Zip your 3 .cpp files, name your .zip file <your full name>Homework3.zip, and upload to Blackboard.
