

Grade Access Codes

Due to university regulations, we are unable to use a portion of your social security number (such as the last 4 digits) as an identifier in the posting of grades. Thus, we are asking you to give us a code that will identify you on the class grade page on the web. To minimize the chance of two people giving the same code, please choose at least 5 characters. You may include numbers, but it should start with a character. Choose it in such a way that minimizes the likelihood of someone figuring out who you are from it (for example, your email would be a bad choice).
