

Fall '11 CIS 122 Assignment 3 – 100/100 points possible – Due Monday, 10-31, 11:59 PM

1. [30] Exercise 5.4 (p. 245). Have your program prompt the user for an input string and then call your function. Save your program as Assignment3-1.py.
2. [30] Exercise 5.7 (p. 246). Have your program prompt the user for an integer input year and then call your function. Save your program as Assignment3-2.py.
3. [40] Exercise 5.14 (p. 247). Implements both parts a and b such that your program prompts the user for an input string, calls the two functions so that the string is limited to both 160 characters and 20 words, and then print the resulting string. Save your program as Assignment3-3.py.

Upload your .py files to Blackboard.
