

CIS 640: Writing in Computer Science
Fall 2012

Assignment #6
Rewriting your personal writing project (Assignment #3)

Due: December 7, 2012, 5 pm (or before if you prefer)

The fifth paper you write will be the rewriting of your personal writing project for Assignment #3. You have now received comments from both a class peer and the instructor. Try to capture in this final paper some of the concepts of good writing that you have gleaned from the text and that we have discussed in class. Please limit your rewriting to the maximum number of pages that you submitted for Assignment #3 — in other words you can make it shorter, but not longer.

Please put a paper copy of this assignment in my CIS mailbox, and also send me a pdf at douglas@cs.uoregon.edu
