

Workshop Proposal for ICSE 2009

Status: continuing workshop series

1. Title of workshop series

2. Organization (chairs and tentative program committee members)

3. Past attendance (for each meeting held)

4. Anything new with the 2009 meeting? (e.g., objectives, structure, output, etc.)

5. The following services are being *considered* by ICSE09 (paid for by increased registration fees for workshops that use them): workshop banquet allowance, keynote honorariums, use of cyberchair. Which of these services do you anticipate using?

6. The following dates are possible for workshops (1 day or 2): Sat (16), Sun (17), Mon (18), Tue (19) preceding the conference; Sat (23) and Sun (24) following the conference. Currently the following co-located events are scheduled:

Int Conf on Software Process (ICSP): 16-17

Mining Software Repositories (MSR): 16-17

Int Conf on Program Comprehension (ICPC): 16-19

Int Conf on Predictor Models in Software Engineering (PROMISE): 18-19

Michael Jackson Tribute: 19

What is your preference for dates? Give us your top 2 choices, indicating #1 and #2.

7. Our goal is to give you early acceptance information (by end of October) so that you can publicize your workshop and draw a solid set of submissions. We would like to know how you plan to use the extra time to promote your workshop.

8. Each workshop will contribute a 2-page abstract to go in the main proceedings. Will you use the same format as last year? If not, layout some bullets that will be included in your new abstract.
