Lower-Division Core
Courses taken graded:
- CIS 210, 211 and 212 -- Computer Science I, II and III.
- MATH 231, 232 -- Discrete Math I and II.

Upper-Division Core
Courses taken graded:
- CIS 313 -- Intermediate Data Structures
- CIS 314 -- Computer Organization
- CIS 315 -- Introduction to Algorithms
- CIS 330 -- C/C++ & Unix
- CIS 415 -- Operating Systems.
- CIS 422 -- Software Methodology I
- CIS 425 -- Principles of Programming Languages

Calculus and Additional Math
Complete 8 graded credits from among these three sequences – courses taken graded:
- MATH 251, 252 – Calculus I, II OR
- MATH 261, 262 – Calculus with Theory I, II OR
- MATH 246, 247 – Calculus for the Biological Sciences
- MATH 233 – Elements of Discrete Mathematics III
- MATH 253 – Calculus III OR MATH 263 – Calculus with Theory III
- MATH 341 – Elementary Linear Algebra
- MATH 425 – Statistical Methods I OR
- MATH 343 – Statistical Models/Methods

Science
Take 12 credits from one of the following options; these classes may be taken Pass/No Pass or graded:
- Physics: PH 201, 202, 203 - General Physics OR PH 251, 252, 253 - Foundations of Physics
- Chemistry: CH 221, 222, 223 - General Chemistry OR CH 224H, 225H, 226H - Honors General Chemistry
- Biology: CH 111 - Introduction to Chemical Principles OR CH 113 - The Chemistry of Sustainability OR CH 221 - General Chemistry OR CH 224 - Honors General Chemistry, BI 211 - General Biology, and BI 212 - General Biology OR BI 213 - General Biology
- Psychology: PSY 201 - Mind & Brain, PSY 202 - Mind & Society, and PSY 304 - Biopsychology OR PSY 330 - Thinking OR PSY 348 - Music & the Brain
- Geography: GEOG 141 - The Natural Environment, and two from GEOG 321 - Climatology, GEOG 322 - Geomorphology, or GEOG 323 - Biogeography

Note: Students are encouraged to complete the accompanying lab courses.

Writing
In addition to the university’s writing requirement, take one from the following (may be taken Pass/No Pass or graded):
- WR 320 Technical Writing
- WR 321 Business Communications
Computer Networks Track Requirements (24 credits)

Complete the following course. This course must be taken graded:
- CIS 432 – Introduction to Computer Networks

Complete two courses selected from the following. These courses must be taken graded:
- CIS 410 – Probabilistic Methods
- CIS 413 – Advanced Data Structures
- CIS 429 – Computer Architecture
- CIS 433 – Computer and Network Security
- CIS 445 – Modeling and Simulation
- CIS 399 – Unix System Administration (summer only)

Complete 8 additional upper-division CIS elective credits.
Choose electives from CIS upper-division courses, including Individualized Study Courses. CIS 399 and 410 must have regular class meetings, homework assignments and a prerequisite of 313 or higher.

A maximum of 8 credits may be taken from courses numbered 399-409, and a maximum of 4 credits in any one course numbered 400-409.

Complete 4 upper-division math elective credits.
Choose any math course with a prerequisite of MATH 252 or higher, or CIS 413, 420, 427, 410 Cryptography, 410 Probabilistic Methods. CIS courses used to complete mathematics elective cannot be used toward upper-division CIS elective credits.

Major Requirements – Major Progress Review Form

Each major must meet with his/her advisor and file the Major Progress Review form after completing Intermediate Data Structures (CIS 313) and Computer Organization (CIS 314).

Any student who receives two grades below C- in upper-division core courses, or three grades below C- in any upper-division courses, may be removed from the major.
